High-speed Internet-based Cable Service Provider needed to...

...your high-speed Internet connection with either Ethernet-based Cable or DSL modems with an Internet Service Provider (ISP) that is connected to your modem for configuration. The 514 acts as a DHCP server and will assign all the necessary IP address information on your network. See Appendix at the end of this Quick Installation Guide or the Manual on the CD-ROM for setting each network adapter to automatically obtain an IP address.

Check Your Package Contents

One device fit various applications.
No need to change lenses.
Simple focus adjustment.

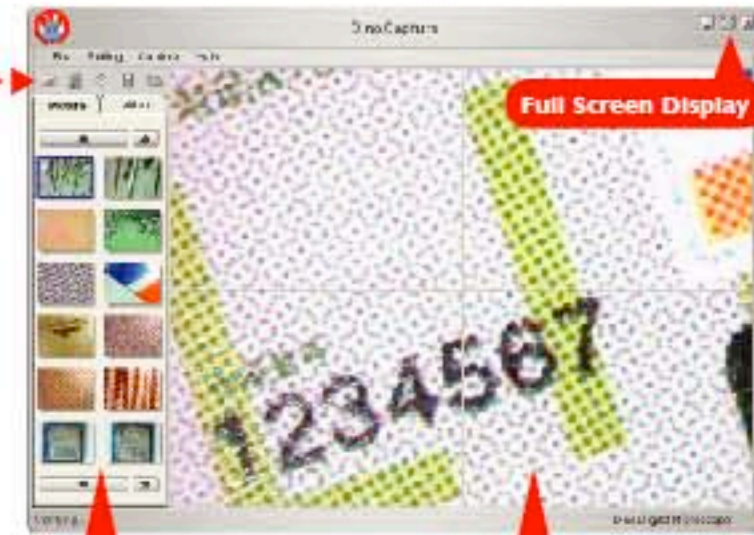

The DinoLite is also compatible to most of the messenger softwares, which makes the teleconferencing become more easier for various kind of discussion.
