**VL-5 Exam Camera**

The VL-5 is a small lightweight battery powered camera with video out to a TV (or computer with optional adaptor). The built in lighted lenses have polarized or regular lighting. Comes in 30x or 50x versions. Runs for 3 hours on 2 AA batteries. Provides high quality images with 1/4" CCD @ 250,000 pixels.

- VL-5 30x (Special Order Only)** - VL-5 camera with composite cable, 30x polarized/non-polarized lens. *VL5-30x* ..... \$650.00
- VL-5 50x** - VL-5 camera with composite cable, 50x polarized/non-polarized lens. *VL5-50x* ..... \$650.00
- Video to USB Adaptor** for PC/Mac computer *SC-Capture* ..... \$149.00

**Skin Sensors**

- Moisture sensors
- Sebum (oil content) sensors
- Elasticity Sensors

**Moisture Sensors** provide a simple means of quantifying the moisture content of skin. Simply press the moisture sensor against the skin and it instantly provides a digital display of the percentage of skin moisture at that spot. The literature shows you a relative scale of percentage numbers related to skin condition.

**Sebum (oil content) Sensors** measure the oil content of the skin at the point being tested. Used with a moisture sensor reading it helps in determining the balance between moisture and sebum content to determine the proper combination of cleansers and moisturizers to recommend.

**Elasticity Sensors** firmness of the skin or good spring in the skin are an indication of youthful looking skin. Elasticity and moisture content readings have a direct bearing on overall youthful appearance.

- Moist Sense** moisture sensor for skin moisture content by Moritex
- Mor-MS* ..... \$79.00
- Moisture Checker** moisture sensor for skin moisture content by Scalar
- MY808S* ..... \$124.00
- Dual Sense** skin moisture and oil content sensor in one
- Mor-DS* ..... \$575.00
- Triple Sense** skin moisture, oil content, and elasticity sensor all in one!
- Mor-TS* ..... \$675.00
- Triple Sense USB Cradle** connect TripleSense to computer via USB
- Mor-TSUSB* ..... \$285.00

**For Computer**

**ProScope HR**

The ProScope HR (1.3 Mega pixel resolution) uses the same lenses and accessories as the Scope On A Rope™ L2, but is the digital version for computer. The included software allows you to capture still images, movies and time lapse movies directly to Mac or PC computer. 1/4" CCD @ 1.3 Mega pixels.

- ProScope HR** Scope with Mac/PC software *TS-USB* ..... \$195.00
